- JavaScript
- Git

STEFANO DELMONTE

MULTIPLATFORM APP DEVELOPMENT STUDENT

Personal Profile

DAM student at La Salle Tarragona with hands-on experience building real applications. Interested in backend and multiplatform development. Looking for an internship where I can contribute and keep growing as a developer.

Projects

BOOK-SHELF

Web application for tracking personal reading, built with Spring Boot and PostgreSQL. Includes a web interface with Thymeleaf, HTML and CSS, and MVC architecture with user management and book records.

PERSONAL PORTFOLIO

Bilingual website designed and built from scratch with Astro, HTML/CSS and JavaScript. Reflects my identity as a developer, showcases my projects and serves as my professional presentation. Available at stefanodelmonte.com

POS – SHOE STORE

PWA point-of-sale application built from scratch with HTML, CSS and JavaScript. Includes thermal printer integration via WebUSB, Google Sheets sync and deployment on Cloudflare Pages. Currently live in production.
